11) What information do I need from my provider?

Families must submit a Provider Cost Verification Form (PCFV) signed by the sponsor and provider. The PCFV collects all re-

quired information about the childcare rates that your family will be charged by the childcare provider. This includes discounts, effective dates, rate changes, rate frequency, and the schedule of care. This form will be used to process your fee assistance application. You will be required to submit this form with your family application after it has been confirmed that your childcare provider is eligible to participate in the fee assistance programs.

12) How is the fee assistance calculated?

The Army Fee Assistance subsidy is the difference between what the Sponsor would pay on the installation and the community-based childcare provider's fee, up to a provider rate cap per the current fee policy, effective 1 December 2022. Childcare fees on the installation are based on your Total Family Income. The Army Sponsor is responsible for any fees not covered by the Army Fee Assistance Program and any amount the community-based childcare provider charges over the provider rate cap. If the difference between the Army monthly fee and the provider's rate is determined to be less than \$20 a month, then a monthly amount of childcare fee assistance will not be authorized.

**Please be advised that the Army Fee Assistance Program is not an entitlement program and is subject to the availability of funds.
